

"BEAT THE HEAT" CAMPAIGN 2009

The summer season is a difficult time for many older adults. The extreme heat creates a hardship... physically...financially...emotionally. For many older adults, it is a time of choices...Often a choice between the cost of cooling their home, and other life necessities. Many will be forced to choose between groceries or medications over their own physical needs.

Sadly, each year there are record accounts of older adults suffering severe health casualties such as dehydration, heat stroke, and even death from the valley sun. This is difficult to hear, but unfortunately a harsh reality for many in need.

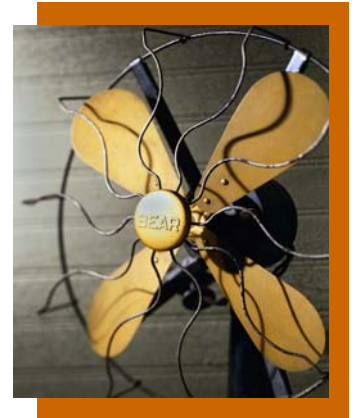

As an advocate for at risk older adults, East Valley Senior Services strives to meet these vital needs. This summer season, you can join our mission in making a difference. Your donation of just \$25.00 will provide a gift card to be used toward the cost of utilities, groceries, or medications, a hot nutritious meal, and a "summer survival kit."

*The City of Apache Junction shares the passion
for providing resources for their residents -
generously matching donations
Dollar for Dollar*

Take this opportunity to share the concern...the passion...the resources...to give your community elders the quality of life they deserve. Save a person in need from the difficult dilemma of making the choice.

*Together... let us give
the gift of hope*
